Summary

I am a .NET Developer with more than 8 years of experience in .NET.

Below you can find the projects list on which I was working:
1. B2B platform for online booking hotels(ASP.NET MVC, Web API, WCF, REST API preparing, REST(SOAP) API integration, Entity Framework, MS SQL, MySql, ElasticSearch, Redis, CI/CD, Jira, Octopus, TeamCity) I was working more than 3 years on this project
(was responsible for integrating with external APIs, fixing bugs, implementing new features, unit testing. From the project's begin, I have integrated with more than 12 APIs.
Configured CI/CD and automatic deployment with 0 downtimes)
[Junior Developer]
2. A small CRM system (.NET Core, JQuery, HTML, CSS, Bootstrap, Web API, MS SQL, Azure) - 0,5 year(from start until end)
[MID-level Developer]
3. A big microservice architecture project - I was working on own microservice(.Net Core, ReactJS, MongoDB) 0,5 year
(I was responsible for the own microservice, preparing integration tests(e2e), preparing the unit tests for functionality)
[MID-level Developer]
4. A big CRM project (ASP.Net MVC, AngularJS, MS SQL)
[MID-level Developer]
5. The process automation system, which has been integrated with more than 8 external systems(ASP.NET MVC + ANGULAR + MS SQL, API(SOAP, Rest))
[MID-level Developer]
6. Dashboard system which is displaying data from database by charts and diagrams(.Net Core 2.2, MediatR, CQRS, MS SQL, Angular 8, MS SQL)
[MID-level Developer]
7. Big microservice architecture system for Long Rolling plants(.Net Core MVC, MS SQL, microservice communication(gRPC), OPC UA communication, MQTT communication, TCP communication, Web API)
[Senior Developer]
8. Implementation of MVC Net Webhooks Listener for CLIO API(ASP.NET MVC, MS SQL, REST API integration, OAuth 2.0)
[Senior Developer]

Experience

⭕ **Senior Software Engineer**
Primetals Technologies
Jul 2021 - Present (11 months +)

⭕ **Software Engineer**
